

نام دوره: نصب و راه اندازی میزبان

مخاطبین: برنامه نویسان و اعضای تیم فنی میزبانها

زمان دوره: شانزده ساعت

- i. Kuknos Technology review
  - a. Architecture
  - b. Components
  - c. Deployment
  - d. SCP
- ii. Kuknos Organization Review
  - a. Kuknos Foundation
  - b. Kuknos Network
  - c. Anchor
  - d. Issuer
- iii. Kuknos economy
  - a. PayMon distribution
  - b. PayMon pricing
  - c. Fee management
  - d. Inflation management
  - e. Operation costs
- iv. Kuknos API and Integration
  - a. Horizon Integration
  - b. Sending and validating Transaction
- v. Anchor's Infrastructure Design
  - a. Network and Security
  - b. Hosting Machine
  - c. Virtualization facilities
  - d. DB Clustering
  - e. Deployment planning
- vi. Anchor's Infrastructure Preparation
  - a. Source Control
  - b. Docker Repository
  - c. Kubernetes Clustering
  - d. PostgreSQL Clustering
- vii. Anchor's Installation
  - a. Kuknos Core
  - b. Kuknos Horizon
  - c. Kuknos Bridge and Compliance
  - d. Kuknos Federation
- viii. Anchor Initiation in network

- a. SCP Configuration
- b. Dashboard Setting
- c. Account Setting
- d. Signature Definition
- e. Test
